Objective

Ambitious and analytical Computer Science graduate with First-Class Honours, bridging the gap between IT Operations and Data Analytics. Skilled in configuring secure network infrastructures, programming data solutions in Python, and utilizing SQL for database management. Adept at translating complex systems logs into actionable Power BI dashboards to optimize business workflows.

Education

Tabuk University | 2021 - 2025
Bachelor's Degree in: Computer Science, **GPA:** 4.85 / 5 (First-Class Honours)

Projects

- **Secure Corporate Network & Systems Infrastructure Implementation**
  Enterprise Infrastructure Deployment & Security Hardening Lab
  - Designed and deployed a secure enterprise network infrastructure simulating real-world corporate environments using TCP/IP, DNS, and DHCP protocols.
  - Implemented security hardening practices, access control lists (ACLs), and firewall configurations to mitigate system vulnerabilities and protect corporate data.
  - Formulated comprehensive troubleshooting workflows for network devices and operating systems to maximize environment uptime and network resilience.
- **Distributed Systems Architecture & Log Analytics**
  IT Operations Intelligence & Data Engineering Lab
  - Built an automated data pipeline using Python to parse, clean, and process complex raw JSON schemas generated from IT operations logs.
  - Applied advanced data manipulation techniques using Python libraries to filter log noise, handle missing data, and aggregate system performance metrics.
  - Developed interactive dashboards in Power BI to visualize system bottlenecks, monitor system uptime, and deliver actionable insights for IT operations.

Technical skills

- **IT Infrastructure & Networking:** Computer Networks (TCP/IP, DNS, DHCP, OSI Model), LAN/WAN Setup, Infrastructure Security.
- **Data Analytics & Databases:** Data Analysis, Statistics, Data Visualization, SQL, Data Exploration & Analytics.
- **Operating Systems & Troubleshooting:** Windows Server, Linux Administration, Technical Support, Hardware/Software Troubleshooting.
- **Programming & Tools:** Python (Pandas, NumPy), Java, HTML, CSS, JavaScript, Data Structures & Algorithms.
- **Business Intelligence & Productivity:** Power BI, Microsoft Office 365 (Advanced Excel, Word, PowerPoint).

Soft skills

- Analytical Thinking & Problem Solving
- Attention to Detail & High Precision
- Organization & Time Management
- Adaptability & Continuous Learning
- Teamwork & Cross-functional Flexibility
- Effective Technical Communication & Collaboration

Courses

- Google IT support
- Microsoft Office 365
- Data analysis
- Project management

Languages

- Arabic: Native
- English: Professional Working Proficiency
